Musicians sharing inspiring stories and music

FEATURING

MARIE REID

Not much Barbie Doll here. That pretty much sums up this music too; tunes chosen by a journeying woman crossed over the half-century mark. This is a soulful, sometimes rough-edged authentic sound in tunes she has written or covers she wishes she had written. Collectively, they paint an American experience. Savvy writing and harmony are her passion. To that end, she has had the good fortune to collaborate with some of the finest musicians in our region. This year Marte Yerkins (bass and vocals) and Marie will begin booking as Nothing But The Water!

"I love the collaborative energy that comes when musicians gather. I think audiences really enjoy seeing what will happen next! This is the spirit of live performance. We participate in it (as listeners and performers), feed each other with our energy and pass it forward."
